# T O P S I D E R

**MARCH 2020**

**TASS**

**Crazy Irishman Chase  
March 14**

**Daylight Savings Time March 8**

**Commodore** by Urs Rathgeb

While February was a slow month in terms of sailing activity, we conducted our Annual Business Meeting on February 20, with a good crowd of approximately three dozen members attending. I won't go through everything that was discussed in detail, but want to mention a few highlights of this past club year:

- We celebrated our 35th Year Anniversary with a crowd of over 100 former and current TASS members

- With support from the original sponsors, we enhanced the Carol Becker Woman's Regatta Deed of Gift to encourage participation from other clubs – 11 boats competed in 2 classes
- We introduced an all-Woman Crew Training (2 classes), with two classes planned once again for this coming year
- We increased the number of charter boat sails (leisure, moonlight, racing) from 35 to 47, reflecting a substantial increase, while at the same time reducing the deficit per sail from \$55 to \$53
- We conducted a complete revision of the Skipper Handbook
- Overall, we had eleven social events, including 6 after-race parties

If you want more details, including a summary of our financials, you can find out by studying the [Annual Report](#), posted on the website. We will also conduct a repetition of the Annual Business Meeting for our members in the Kemah area at [Iguanas Ranas this coming Thursday, March 5](#). For this coming year, we have another active season planned.

In March, besides the weekly leisure sails on Saturdays, Mark Langley will take out a moonlight sail on March 7 ([sign up here](#)), and on March 14 we will celebrate St. Patrick's Day with the Crazy Irishman Chase Regatta ([boat signup here](#)) and of course the obligatory after race party ([sign up here](#)). You won't have to race to attend the party (just wear something green). The charter boat is full for the race, but crew members looking for a boat can [sign up for the Crew List here](#).

We are also getting our Membership drive in gear. After some discussion, we have decided to participate in the second "Little Yacht Sales Boat Show", taking place April 18/19 at the Waterford Marina. I realize that we have participated in similar events in past years, and concluded that it didn't lead to increased membership. We have nevertheless decided to give it another shot. Too many times, when I talk to individuals outside TASS, I hear the reference to "single sailors" and "singles sailing club". Point is, our participation in the show cannot be a rental of a table and two chairs plus a couple of "tent dwellers" enjoying the shade, but rather a full-force approach to present our organization as **what we are today**, and reaching out to everyone who passes our booth. While that may not necessarily promise a large number of new members immediately, it will help transition our image, together with increased outreach to other organizations in the bay. Patricia Gumbs, our membership director, has put a small committee together, with Evangelina Hammond and Kirk Dunham supporting her in that effort. We will likely need some other motivated volunteers. More to follow.

I hope to see you soon at one of our events on or off the water.

Your Commodore  
Urs Rathgeb

## Vice Commodore, Andrew Clark

### Skipper Meeting/Training

This past Sunday, March 1, our TASS skippers gathered in Kemah for the (approximately) annual Skippers Meeting.

The training started with a review of changes made to the Skippers Handbook, which serves as a guideline for our skippers before, during and after our sails, from checkout of the sail to when the boat is safely docked. Over the past year, led as an effort by Fleet Captain Mike Vaughan, and with support by Mark Shield (TASS Member and Auxiliary Coast Guard Member), many enhancements focusing on safety were included. These changes included amongst others a more thorough crew briefing on safety aspects, a review of the equipment list which the skipper brings with him on board, the way we notify the charter company in case of issues with the boat, as well as the formal implementation of a zero alcohol policy for the skipper in charge of the sail until the boat is tied back to the dock.

After that, Thann Dauterive, our webmaster, explained to our skippers how they can best take advantage of the tools our website offers. This included how to retrieve the most up to date boat checkout and waiver form, how to print out a crew roster before the sail, and ways to get in touch with crew members in preparation for the sail. The new TASS Website introduced a couple of years ago definitely includes improved avenues to keep in touch with participants of events and send targeted notices helpful to participants (not just for sails, but also any other kind of events).

#### *TASS Skippers after the classroom training at Waterfront Marina*

After the classroom training, Nancy Welch graciously had made Mischief available to do some on the water training. A group of six skippers went out on the water to do Man Overboard drills, focusing on the "Quick Stop", a maneuver aimed at stopping the boat and returning to the person in the water as quickly as possible. Weather conditions were appropriate for that type of training with winds blowing 18-22 knots. All of us on board agreed that this way of retrieving a person who went overboard is more effective and faster than the "Figure 8 method" we had learned during ASA courses.

Last but not least, the Skipper Meeting also gave us a great opportunity to enjoy each other's company and catch up!

## Late Breaking News.....

**Our very own Skipper, Purser and amazing leader of women on the water Nancy Welch has shared some wonderful news with us this week.**

“I’m so excited! I just found out that I’ll be sailing on the Maiden on leg 10!!! It’s a wonderful opportunity to be able to sail on this boat with her amazing skipper and crew. So much to learn. To find out more about this boat and its current mission go to [The Maiden Factor](#).

YES! That Maiden, the actual sailing vessel that Tracy Edwards, MBE captained in the first all-female crew to ever sail around the world.

Nancy, fair winds on your voyage and we cannot wait for you to bring back amazing stories to share with us. TASS is proud of you.

## FLEET NEWS, Michael Vaughan

### FULL MOON SAIL

TASS full moon sails with Skipper Mark Langley is always a popular event throughout the year. The first full moon sail of this year takes place EARLY in our schedule on March 7<sup>th</sup>. We have seats available for this sail so jump in and register. “IT IS NOT TOO COLD to go sailing in March” crew member Nancy Kahlden states and she is already registered. “The weather is looking delightful and clear for this full moon event.: so sign up and join the sail.

The march full moon is called the Worm Moon and this full Moon will also be the first of three supermoons in 2020—the other two occurring in April and May. “Supermoon” is the popular nickname given to a full Moon that coincides with perigee, which is the point in the Moon’s orbit of Earth where it’s closest to our planet.

Use the link below to register now.

The weather should be improving to provide us with great sailing in March. TASS has a mix of sailing events. In March we have planned one moonlight sail, three leisure sails, and a TASS race. WOW, Skippers are ready to give you on water experiences – hope you are all ready to go sailing. There should be at least one event that you may want to participate in. Here are the registration links for the upcoming sails.

**March 7 – Day – Leisure Sail**      [Skipper Urs](#)  
**March 7 – Night- Moonlight Sail**      [Skipper Mark L](#)  
**March 21 – Day – Leisure Sail**      [Skipper Mark M](#)  
**March 28 – Day – Leisure Sail**      [Skipper Gavin G](#)

Signup early for these sails, as we have been filling up and you may miss your opportunity if you wait. We are lucky in Houston to be able to sail year-round so let’s get out on the water.

**REGISTRATION REMINDER** – We try to have some type of sail each weekend unless there is another event that overrides sails. Windward Sea Venture, our charter company, is getting busy and we will have challenges to reserve the boats that we want if we are not able to reserve early. Normally, sign-ups for sails end at midnight on **Thursday** night. If we do not have enough people registered by midnight on Thursday, the sail may likely be canceled. So, please sign-up early so that we can all spend more time on the water.

**MEMBERSHIP MATTERS** by Patricia Gumbs

Great turnout for the 2020 annual meeting in town with 29 members in attendance. Thank you to everyone who took the time to register for this event online. It is very helpful for me as the director to keep track of how we are doing on attendance at events. Every event, whether it is a paid event or free, is important for us as a club to evaluate what we need to do to have a great outcome. I appreciate your help and thank you in advance for your cooperation.

2019 was a good year for membership. 41 new members join February 2019-January 2020

Let's make 2020 even greater with your help and ideas on ways to increase membership. This is everyone's club so let's all be a part of welcoming aboard new members.

**OUTLOOK 2020:**

Emphasis on a membership drive through various outlets. Social Media, Twitter, Instagram. Tech-savvy members share your ideas and help us promote TASS.

Look for the Boat show coming in April and come out and support your club.

Wishing a very Happy Birthday to all our March Members

Olga Adair	Melody Bohlman
Thann Dauterive	Caprice Dodson
Kathy Dunnill	Margaret McCord
Mark Langley	Mark Shield
Paula McCoy	

Most important for our members is your profile in the database. Members must update their emergency contact information. If something unforeseen happens, we will have the ability to contact someone on your behalf.

Patricia, Membership Director

**SOCIAL** by Joanne Moschella

Once again TASS members experience an epic Superbowl party hosted by Mark Langley. Mark asked that we extend a huge thank you to all who attended, 30+ this year. We had a divided cheering section for the SF-49ers and KC-Chiefs making an interclub rivalry exciting with roars from the crowd erupting as various points in the game. The participation in the pool brought an added hype as the score changed hands and millionaires were made and broken with the snap of the ball and the countdown of the clock at each quarter. It was so crazy, we cannot tell you for IRS purposes who were the pool winners but we can say, the winners were happy with their loot. Whether you were into the game or not the food and company were terrific. TASS thanks Mark for always being such a gracious host for the Superbowl. Maybe next year Barb will get to see her beloved TEXANS in the Superbowl. See you then. Aside from Superbowl and Mix and Mingle, February was a mild as our weather. Most sailed in the Icicle race as we prepare for the 2020 race season for TASS.

Our first after-race party will be on March 14<sup>th</sup>. So, as the Irish slang sayings go ....

**Pull Your Socks Up** = *Get Busy...*

**Don't give me any of your guff** = *Don't give me your excuses ...*

**It is Time to PULL OUT THE GREEN and make like a Crazy Irishman for the Chase and after-party.**

**Register the party** it's free and will be held directly after the conclusion of the race at the Sundance Grill, Waterford Marina, Kemah.

It is sure to be a great kick-off for our 2020 race season.

March roars in like a lion with a new Meet and Mingle location. The selection for our fun gatherings will be "The Tasting Room", 1101-18 Uptown Park Blvd, Houston, TX 77056. Our TASS host for this month's Meet and Mingle will be the gracious Nancy Kalden. Thank you, Nancy, for stepping up and helping us with the March events. Your assistance is greatly appreciated and you lead the way for more TASS members to step up and lend a helping hand.

TASS Host is Nancy Kahlden.

[Register here for March 12](#)

[Register here for March 26](#)

See you all on the water soon.

Webmaster by Thann Dauterive

This month is a rather long article. Several people seem to get tripped up in the system when trying to register a guest, therefore for this month I chose to write an instructional HELP article with system screen shots. If you are a member that has experienced a setback when trying to register a guest, this LONG article is for you. A PDF document like shown here:

**How should active members register a guest for events** of this

instructional article is posted in our library under FAQ's for future reference. We hope it become a helpful document.

The TASS website library FAQ's can be accessed through this link <https://sailtass.com/FAQs>

*We don't know what you don't know unless you ask.*

*EMAIL: [webmaster@sailtass.com](mailto:webmaster@sailtass.com)*

Before I explain how to register a guest or significant other, let me explain how your TASS membership works.

- Each membership MUST have a unique email address that you used when you established YOUR INDIVIDUAL membership and every time you log into the website. Think of your email as your ACCOUNT NUMBER.
- No two members can SHARE an account or use the same email address when establishing an account.
- Member to email address/account is a 1-1 set up.
- ✓ If you are a member and you would like to register a NON-MEMBER for any event [free or paid], you can ADD a PLUS 1 to your registration.
- ✓ If you are a member and your significant other is also a member you can add that significant other to your registration at the SAME TIME you register yourself.
- ✓ If you are a member and you want to register ANOTHER MEMBER [significant other or friend] you can also do that at the time you register yourself.

**THE TRICK IS:** Once you complete the transaction for yourself, your **CANNOT GO BACK AND ADD a guest.** The ADD GUEST is a checkbox on the screen before you confirm the registration. If you get this far and your ADD GUEST box is not checked, GO BACK using the page back arrow. If you exit out and try a DO-OVER, you don't get a DO-OVER.

If you check out and complete your registration transaction and did not add a guest, that transaction is now complete and closed. This means your guest MUST register as an individual in the system for the event. You cannot go back using your account and add a guest once your transaction is closed.

The guest will be required to click on the event link and fill out their email address and all the information that is required for the registrations. Some events such as sails require more information to be provided [for safety reasons] than single registrations for a meeting, meet and mingles or after-race parties. It is required that guests use a legitimate email address, please do not try to fake out the system by making up an email address.

Additionally, the system will not allow you to re-use your email address to register someone else. If you try, the system will tell you that YOU are already registered.

Below are a few tips and screen shots that will direct you through a registration when trying to add a person at the same time you register yourself.

The first example I will demonstrate here is a SIMPLE registration – used for Meetings, Meet & Mingle, After-Race party registrations and mostly free events.

To get started you begin your registration transaction as you always do. Nothing different. [Log in > go to the calendar >](#) select the event you want to register for.

Once you click the Register button scroll to the bottom of the page and you will see where the system allows you to INCLUDE additional guest. Here is where you will enter your **PLUS 1**. Now complete the registration and close.

Because this is a SIMPLE registration event, the system will not ask for guest information. Select the Complete registration box and you have now registered yourself and guest.

If you scroll to the bottom of the page you will see a confirmation that you have registered yourself and Additional guest (and the # of guest you entered).

If at this point you select the **Return to Event** box on the bottom right of the screen you will return to the event which will give you information about the event.

Note: At the bottom left it tells you that you are already registered – therefore, you cannot register anyone else after you have reached this step.

## EVENT NAME EXAMPLE - Member Registration and Add Guest

When **1 Sep 2020**  
5:00 PM

Registered **2 registrants**

**Registration**

- RSVP

Already registered

Members should register your guest at the same time you register yourself.

This is done before you complete the transaction.

This is a simple registration for an event like After-Race Party or meeting or Meet & Mingle which is a free event.

Lastly, you will receive an Event registration confirmation (Receipt) via email as shown in the example to the right.

Dear Thann Dauterive,  
Your event registration has been completed. Thank you for registering!

## EVENT NAME EXAMPLE - Member Registration and Add Guest

When: 1 Sep 2020 5:00 PM, CDT  
Where:

**EVENT DETAILS:**

Members should register your guest at the same time you register yourself.

This is done before you complete the transaction.

This is a simple registration for an event like After-Race Party or meeting or Meet & Mingle which is a free event.

The next series of screen shots will instruct you on registrations for PAID EVENTS. The starting point is the same. [Log in>calendar>find event](#)

## EXAMPLE - Member & Guest Registration for Paid Event

When **1 Sep 2020**  
2:00 PM - 9:00 PM

Location Location address given upon registration

Spaces left **44**

Registered **Be the first**

**Registration**

- **Guest of TASS Member – \$35.00**  
Allows Members to register an invited guest to the event
- **Members – \$25.00**  
Members may register a guest at the guest price of \$35.00

FAKE EVENT Party Registration

**Back by Popular Demand -**

Menu and Details will be posted closer to the event date.

**SAVE THE DATE!**

Bring your favorite beverage(s), a lawn chair, towel and swim costume.

Pool time in the afternoon, music, games, story telling from past pig roasts so bring a story and old photos if you have some.

Party Pool Time starts 2 pm

**\* TASS Private Event - Members Only may bring a guest.**

**NOTE:**

Thank you for your registration. Event is non-refundable.

This event is at a private home therefore your registration confirmation email contains the

Register

**NOTE: This registration button is for the MEMBER to register. Select the button and move to the next screen**

Because this is a PAID event the first action is for the system to verify your email.

**EXAMPLE - Member & Guest Registration for Paid Event**

Because this is a PAID event it will verify your email

Note what it says - Critical you enter a LEGITIMATE email address

If you are already logged into the system it will populate your email ACCOUNT

If you are not logged in you must enter the SAME email as in your account profile.

Event EXAMPLE - Member & Guest Registration for Paid Event  
1 Sep 2020 2:00 PM - 9:00 PM  
Location: Location address given upon registration

Enter registrant email \* Mandatory fields

Email

*It is critical that you enter a legitimate email address please. If member is entering a guest DO NOT use your email you must use the actual persons email.*

Cancel Next

IF you are logged into your account, your email will automatically appear, if you are NOT logged into the system, you will be annoyed to find you will have to enter your email and all mandatory information. Advisable that you always log in first when registering for any event. This will save you time and probably a lot of aggravations. You will like the system much better if you log in.

Note the system states that it is **Critical that you enter a LEGITIMATE email address.**

Now click on the NEXT button at the bottom right of the screen to advance to the next step.

Your register yourself first by selecting the button next to the MEMBERS registration box. Then hit the NEXT button on the lower right of the screen.

**EXAMPLE - Member & Guest Registration for Paid Event**

Next page repeats the event information REGISTER yourself first

Event EXAMPLE - Member & Guest Registration for Paid Event  
1 Sep 2020 2:00 PM - 9:00 PM  
Location: Location address given upon registration

Choose registration type \* Mandatory fields

Cancel Back Pay online

### DISCLAIMERS:

- **TASS events are non-refundable.**
- **You have 15 minutes to complete your registration transaction from start to payment otherwise the system will time out – JUST LIKE TICKET MASTER and other online payment events. Should this happen your registration is considered incomplete and will be voided. You will have to start the registration process over if this happens.**

### MarchTECHTIPS

## Should You Reef Your Mainsail Now, Before You Fall Off Downwind?

Imagine that you are cruising along the coast on a lazy downwind passage. You are sailing in a light 5-knot southwesterly breeze with the wind on the quarter. The wind slowly increases to 15 knots throughout the day, but you hardly notice.

With the boat level and the crew relaxed and content, what could be better? Near the end of the day, the wind shifts abruptly. You'll need to head up to a close-hauled course. You change course with full sail and the boat heels hard over! So, what happened?

When sailing downwind the apparent wind was relatively light. That's because the boat travels in the same direction as the wind.

For example, if your boat travels at 6 knots downwind, and the true wind is blowing at 15 knots, the apparent wind your boat "feels" will be 9 knots (true wind speed minus boat speed).

What happens when you head upwind onto a close hauled course? As your boat turns upwind, the apparent wind increases to almost 20 knots on a close-hauled course!

That's because the closer you are to the true wind, the higher the apparent wind speed becomes and

the more your boat will heel. More heeling means less efficient sailing. Weather helm increases and you lose power, speed, and drive.

### Put this Sailing Plan Into Play...

Before you change course to run downwind, check the visual picture along with the weather forecast. Do you see whitecaps building to windward? Are winds and sea predicted to build this afternoon or evening? If so, tuck in a reef now BEFORE you fall off to a deep broad reach.

Thanks to Captain John, for sharing - [www.skippertips.com](http://www.skippertips.com)

### TRIVIA

YOUR HOROSCOPE Contributing Editor, Don Dykstra

WARNING: *passionate believers in horoscopes should read no further.*

Years ago, I met a lovely lady. One of her first questions was: “What is your sign?” Jokingly I said: “Feces.” (It sounds a bit like Pisces). She was offended, but since she was attractive and loved sailing, I decided to educate myself about the mysterious world of astrology. To start with, I studied: *“The Complete Idiots Guide to Astrology.”* If I am not mistaken, it was around 400 AD that astrologers developed theories about predicting people’s future based on the position of the sun, moon and planets on the day and at the time they were born. (It doesn’t always seem to work, because you seldom hear that a psychic has won the lottery)

In order to become a celestial ship navigator, I had squandered a great deal of my precious youth on studying spherical trigonometry, which is as complicated as it sounds. This was followed by courses in astronomy to learn how heavenly bodies move through the universe.

Most of us have heard about the “Dog days of summer”; referring to the hottest period in the Northern hemisphere. As early as 3,000 years ago Babylonians and later the Greeks and Romans observed that in late July, early August Sirius, also known as the “dog star” rose shortly before dawn -and set at dusk- in the same direction as the sun. (Except for the sun, Sirius is our brightest star. Venus is bright too, but it is a planet and meanders around a lot). Sirius is part of the constellation Canis Major, or Great Dog.

In about 365+ days the Earth moves around the sun along the Ecliptic. Approximately every 30 days the background of the sun is another constellation. Astrologers selected Aries (Ram) as a fixed point on the ecliptic circle. This is where the sun is around 21 March; the beginning of spring. Western

astrologers consider Aries as the period from 3/21 to 4/19, Taurus from 4/20 to 5/20, Gemini from 5/21 to 6/20 etc.

This is all fine and dandy. However, there is a fly in the ointment. It turned out that Aries is not a fixed point after all and actually moves 50.26 arc seconds per year. This is caused by wobbling of the earth's axis. (For you Googlers, it is called Precession). This means that all the signs of the zodiac will move 360 degrees around the sky in about 26,000 years. Let's say you were born in the year 1960. The difference between 1960 and 400 AD when the horoscope signs were assigned, is 1,560 years.  $1,560/26,000 \times 365$  is about 22 days. To determine your revised horoscope sign, you need to subtract 22 days from your birthday. Chances are you'll fall under an earlier sign. Maybe you like that one better or maybe not; take your pick. For anybody who cares, in about 12,000 years, Sirius will no longer be rising and setting in the same direction as the sun in mid-summer, but will do so in mid-winter. Folks (if there are still any of them around) will be talking about the "Dog days of winter."

Years ago, when personal computers came out and software to draw your astrological chart, I got the idea of redrafting people's birth chart and sell them on the internet. First, I did some marketing surveys and asked friends and acquaintances who were firm believers in astrology, what they thought about having their birth chart redrawn. Most of them got mad and considered me some blasphemous freak. They considered astrology the same as religion, where you would not let facts stand in the way of faith.
