## TUBING INFORMATION

**Tubing Options: You will need to make a choice, so talk this over with your condo mates.**

We have 2 RIVER OPTIONS - and people may want to choose which river to tube.

### OPTION # 1

Guadalupe seems it could be faster running WITH RAPIDS ESPECIALLY IF THEY HAVE FRESH RAIN, OTHERWISE I AM TOLD IT IS (mild)

It takes approx. 2.5 hrs. to tube the Guadalupe. *You cannot get out & walk around the rapids on this river due to private property.*

**Rocking R Tube/Rating Company is the tube company and it is suggested to make a reservation as Sat. gets busy.**

**Gruene Location Rentals** <https://rockinr.com/> (book your tube online)

Their rentals include transportation back to the raft start site.

You will need to drive to the raft company from the condo.

*Read all the information on the website under the bookings - not going to copy all that info here.LOL*

### OPTION #2

#### Comal River

Comal River is considered a lazy river and runs in front of the Condo.

Texas Tubes. <http://www.texastubes.com>

Texas Tube is rental & walking distance from condo.

It takes approx. 2.5 hrs. to tube the Comal

They have 2 rapid man-made shoots to navigate. They are like big slides, BUT you can get out and walk around them & get back into the river if you don't want to shoot the rapids.

The Comal River water temperature is an amazing 72 degrees, perfect for tubing and blasting through the exhilarating and super fun [Tube Chute!](#)

Tubing company accepts: Cash, Visa, M/C, Discover, Apple Pay & Amex

- Tube Rentals require a Valid I.D, as a deposit
- Tube Rentals include one return shuttle ride.
- No Reservations or holding Tubes, Tubes are rented on a first come, first serve basis

You should check out which raft trip you and your condo peeps want do.

Below are links to each raft/tube rental. You can also go to YouTube and looks up some video's on each river.
